M1400	645kg	479kg	121.9 x 62.2 x 74.9	$13,700
Bin to suit : A970				

M Series are available in three convenient sizes 22” (55.9cm), 30” (76.2cm) and 48” (121.9cm) with 6 different production ranges from 420 lbs (176 kg) to 1400 lbs (649 kg) of ice

M series ice machines are designed from the ground up to meet your operational demands for a worry-free, simple-to-use, basic ice machine; but that doesn’t mean corners were cut on quality.

There are only three controls you need: On, Off and Clean.

And for cleaning, access to the evaporator and food zone is simple with the removal of just two screws and easy, lift-off door.

MEPS—Why it Matters

What are the Consequences if products do NOT comply

The regulator can

⇒ Suspend a model's registration

⇒ Cancel a models registration

⇒ Enforceable undertakings

⇒ Infringement notices

⇒ Civil penalty orders

⇒ Injunctions

The regulator can publicise details relating to enforcement responses including the names of registrants and the model numbers of the products

Protect Yourself

Check that the cabinet is registered for MEPS / GEMS

⇒ refer to the MEPS website reg.energyrating.gov.au/comparator/product_types

⇒ Research the cabinets MEPS figures on the MEPS website. If for example the MEPS figure is 5.8 (kWh/24hr/m2), this means the amount of total energy consumption over a 24 hour period per square metre of display area

⇒ If you cant find the cabinet on the MEPS site, assume it is NOT registered and therefore not legally able to be sold or used in Australia and / or New Zealand
